Side Chair

Knowledge, Ships in 8 Weeks

The slender kicked legs and soft curve of the back of these chairs add a beautiful repetition of line to this dining presentation. Fabric on the outside back is framed perfectly by the plane geometry of the banister. The frame is crafted of Cherry hardwoods and is available in all wood finishes and any painted lacquers. Spring seat construction is standard.

Wood Species: Cherry

COM Required: 3.5 yards for 2 chairs
